CAREER OBJECTIVE

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in programming, data structures, and software development. Passionate about solving real-world problems through innovative technologies such as Artificial Intelligence, Web Development, and Cybersecurity. Seeking opportunities to apply and expand my skills in a challenging tech environment while contributing to impactful projects.

RESEARCH INTERESTS

My research interests in Artificial Intelligence and Machine Learning (AI-ML) focus on both foundational theory and practical applications that address real-world challenges. Key areas of interest include:

- Machine Learning Theory & Algorithms
- Natural Language Processing (NLP)
- Generative AI
